Don't You Know

that you can secure alimmediate relief from Indigestion, and that uncomfortable fullness after meals, by simply taking a dose of Simmous Liver Regulator? Some people think that becau se it is called Liver Regulator it has nothing to do with Indigestion and the like. It is the inaction of the Liver that causes Indigestion, and that fullness; also Constipation, and those Bilious Headaches, Millions have been made to understand this and have been cured from these troubles by Simmons Liver Regulator-a medicine unfailing and purely vegetable.

From Rev. M. B. Wharton, Baltimore, Md
"It affords me pleasure to add my testimony to the great virtues of Sliminos-Liver Regulator. I have had experience
with it, as occasion demanded, for many years, and regard it as the greates tine of the times. So good a me

AND INSURANCE ought, Sold and Rented, aid, and Managed,

SENATOR STRVE WHITE made a rat tling silver speech in the senate on Thursday. He scored the administration and said no friend of silver need expect anything from it.

THE advent of many strange Mexisons into this section of Arizona should call for the strictest observation on the part of the officers whose duty it is to apprehend criminals and preyent crime. A few more such atfairs as the killing of Frank Oury will make our country an undesirable place for law abiding people to live in.

THE smelters although in the market for ore are not on velvet, so to speak. We do not know of one in the southwest that is purchasing ore and paying for it under thirty to sixty days time. The Pueblo smelter is reported to be in the market, but pays for the silver at a future figure. Silver bullion is quoted in New York at 71 for December, delivery. They therefore pay that price for the silver contained in the ore purchased by them. The miner gets the worst of it all around, while the smelters are enabled to protect themselves against any possible loss.

THERE is no question about there being an overwhelming amount of intelligence in the senate of the United States compared with the house. Whether the method of electing the senators, being removed away from the people is an advantage or whether the increased compensation increases their brain power is a question for political economists to solve. Certainly there is room for improvement in the method of choosing our congressmen when the majority of them forget their pledges as soon as the atmosphere of the Potomac flats str kes their lungs.

Bur once in the history of Cochise county has Wilcox been represented on the Board of Supervisors. No sooner was she given a representation on the board than a howl went up from the faction which had been doing all the kicking, because the member selected happened to be a democrat instead of a republican. The most barefaced falsehoods are told to make political capital from. The latest one is that Mr. Nichols has given no bonds as supervisor and that be is not a citizen of the county. Mr. Nichols has a gilt edged bond on file at the recorder's office and has been a citizen of Cochise County longer than a majority of his traducers. Like the boy who cries for a toy, some people, like this lad do not know what to do with a present after they get it. It would be policy for Wilcox to assist her representative 'rather than to be eternally fighting him.

ONE of the grossest pieces of folly of which our government is guilty is that of discriminating against Mexican vessels touching at United States ports. A tonnage duty of \$1.03 per ton is charged on all freight carried to the United States in Mexican bottoms, while an additional duty of ten per cent is exacted over the regular duties on merchandise brought to American ports in Mexican vessels This discrimination exists only against Mexican ships. Ships from other countries can touch our ports without any of these restrictions upon their cargoes. The Mexican government, on the other hand, does not discriminate against American vessels, but they pay exactly the same tolls as do the vessels from other countries. It is this insare policy on the part of

Gibson of Texas has been appointed consul at Guaymas.

The Union Pacific employes have roted not to accept a reduction of

The Brazilian rebel squadron, which sailed for the south intending to bombard Santos, Perto Alegre and Rio Grande do Sul has been defeated.

Rich placer diggings have been dis-Washington. Great excitement prevails. Prospectors are making \$50 to the barber off, etc. \$100 per day.

The monetary commission of Chiha has adjourned, after making two reports. One favors continued use of Mexican dollars and the other favors their abolishment.

The jury in the trial of Harry Northup in a saloon row in San Francisco, was discharged yesterday. The jury was unable to agree on a verdict after nineteen hours.

Allen of Nebraska has introduced a bill in the senate making the dollar (which may be coined of 4124 grains silver or 25 4 5 gold) the unit of value. The bill also repeals the Sherman act and provides that the owners of silver may deposit it in the mint, less 20 per cent seigniorage, to be coined.

The New York World roasts President Cleveland for his appointment of Van Alen minister to Italy. The World claims that Van Alen contributed \$50,000 to the Democratic national campaign fund in 1892 and his reward is this appointment. The World quotes Van Alen as saying that America is no fit place for ladies and gentlemen to live in.

The express train out of Chicago for New Orleans was stopped by masked men, who fought their way to the express car after wounding the fireman and engineer. One rebber was laid out with a monkey wrench and another filled with shot by a passenger, but escaped. The wounded robber confessed and the whole crowd was subsequently captured.

The second section of the wes bound passenger train from Detroit to Chicago ran into an east bound freight on a siding yesterday morning, breck ing both engines, coaches and sle The accident was caused by a freight brakeman opening the switch to let the freight out of siding after the first section of the passenger passed and just before the arrival of the second section. Twenty bodies have been taken from the ruins.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting

It is this insare policy on the part of the United States that drives the trade of our neighboring republic to seek other shores and more congenial channels.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Reamedy that cured her of croup, and in turn administers it to her offspring and always with the best results. For sale by druggists.

Its excellence is due to its presenting in the form most acceptable and plass and to the fast, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

BY GOSH.

Indian Soldiers,

The U.S. army has been brought to a standard of perfection by the introduction into its ranks of Apache Indian soldiers. Their erect bearing and clean cut, distinguished features are in strong contrast with the sawedoff physique of the pale face.

The Indian soldiers are rapidly acquiring habits of civilization. They covered by Chinamen on Kettle river, get drunk on pay day, beat the washwoman and the newspaper man, stand

> Three officers of Co. G, Troop I. Regiment B visited this camp last Sunday. Instead of going to church they sat down on a beer keg and took in the situation.

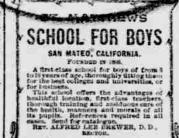

The lieutenant noticed a pule face get his shoes shiped and followed in his footsteps. The boy who did the Thorne, who shot and killed Frank shining was the minister's son and charged fifteen cents for a Sunday

BEATING THE BOOTBLACK.

shine, of which he kept five cents and put the balance in his father's contribution box as a conscience fund The lieutenant frightened the minister's son Into shining his shoes for five cents, which so incensed theo id man that he preached a sermon the next Sabbath, the text of which was, "Can the Indian be civilized?" He took the negative side of the argument,

This sermon agitated the Apaches when they heard of it, and now the minister has a libel suit on his hands, which is another evidence of their ivilization, and cont ary to the minstor's argument.

PUBLIC NOTICE

The following circular has been forwarded to the corporations and other bodies empowered to appoint delegates:

From the enclored proclamation you will ob-serve that as international Irrigation Congress is to be convened at Low Angeles California on October 10th 1893 and to remain in session for

October toth 1853 and to remain in session for five days.

By the resolution calling such Congress to the congress and the congress are entitled to two delegates arone each Congressional district and four oriegates at large, these to be appointed by the Goverror. In addition each Probate Court, each University or Cobbge where irrigation engineering is taught, and each Chamber of Commerce has the power to appoint two delegates: each Agricultural or Horsicultural Association has the right to sent two delegates for each one hundred members or fraction thereof, and each corporation form of for the purpose of premoting arrigation is entitled to one delegate. The Mayor of each incorporated city having 2,500 or more population and the Chief of each State Agricultural or other Industrial School are entitled to a sits with power to select substitutes.

view.

You are aware of the importance of the gathering. It is the first time that the Nation Government has officially recomined such body, and the first time that representatives foreign governments interested in the subject

body, and the first time that representations foreign governments interested in the subject o irrigation have been invited to have representatives present.

No section of the great arid region is mor interested in the deliberations than Arizona.

I would therefore respectfully and earnest uree you to appoint the aumiter of delegates the which you are entitled and to select men who can attend and who are best qualified to do with the important questions which may arise.

Yours Truly.

L. C. HUGHES,
Governor of Arisona.

INFLUENZA.

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

trated, and so difficult was not breathing that my broast seemed as if confined in an iran cage. I precured a bottle of Ayer's Cherry Pectoral, 2nd no sooner had I began taking it than celled it leased. I could not believe that the effect would be so rapid and the cure so complete. It is traly a wonderful medteine."-W. H. WILLIAMS, Crook City, S. D.
